

1. Draw an oval for the head.
2. Draw a vertical and a horizontal line through the oval, making a large cross.
3. Draw eyes on the horizontal line. Make each the shape of a pointed oval. Draw a round circle in the center of the eye for the iris, and make a dot in the iris for the pupil.
4. Draw a nose on the vertical line. Make it the shape of an upside-down seven.
5. Draw a mouth midway between the base of the nose and the chin. Draw the top lip line to resemble 2 hills. Make the lower lip line a single curve, with the separation between the lips like 2 low hills.
6. Draw the ears like question marks across from the eyes and extending down to the base of the nose.
7. Draw eyebrows and eyelashes.
8. Draw hair over the forehead, extending down the sides of the face.
9. Draw a neck by extending 2 slightly curved lines down from just below the ears.
