

Our vision is rooted in the parable of the good sower. We provide the supportive, secure and stimulating environment so that children can grow and flourish, individually and collectively to achieve their very best. We want our children to be happy healthy learners who have fun in and out of the classroom.

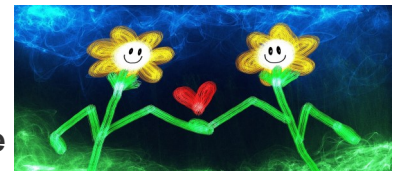

Our school is one family

We are just the right size school so that we can get to know all of our children, a real community, where we get to know the children, their siblings and their parents. We want the children to get to know us and each other so that they share a real sense of belonging as they journey through the school

Our nurturing environment

Our children come to us with all sorts of different skills, interests and abilities that we embrace and celebrate. We encourage all our school community to care for and support one another that creates a wonderfully positive environment for all

Our Curriculum

We are developing our Cultural Curriculum to meet the needs of all our learners. We are a Literacy led school whereby our planned learning is inspired by books, implemented with creativity and assessed effectively using Target Tracker. Maths and English are very important but other subjects such as PE, Music, Art, Science, Technology, RE and the Humanities help develop our children into great learners and well rounded young people.

Our School Grounds

We have a fantastic large, spacious and modern school building. The classrooms are bright, airy and very child friendly. We have a great library, computer room and technology learning space along with two halls and group learning rooms. The outdoor space is safe, secure and offers the children a huge playing field, large football pitch, netball court and space to run, play and be imaginative. We take full advantage of our abundance of open space and fresh air.

Our staff

Our leadership team is passionate and highly committed to providing the very best for our children. We are committed to enabling all our children to reach their full potential and when the time comes to successfully prepare them for secondary school

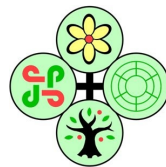

Our Ofsted report

As a newly converted academy, we do not have an Ofsted rating. We are enjoying our journey to Good and Beyond!

Our SIAMS report

We are also proud of our most recent SIAMS report, which rates us as Outstanding

**Please come and visit us, we would love to meet you and your children
Contact the school office on 01908 867356 for a tour around the school and a chance to
let some of our children tell you how they enjoy being part of CtS.**

Come and Join Us!
