

Day 4

Year 3 tasks

English

Choose one of the pictures below and study it carefully. Then answer the questions in full sentences.

FOREST

Credit: Aaron

Becker

- What's on the other side of the door?
- What is the girl

holding in her hand? Why?

- How did she get to the forest?
- Where is this?
- Who hung the lanterns in the trees?
- Where does the stream lead?
- Will the girl go back through the door or stay in the forest?
- Predict what will happen next.

CROCODILE

Credit: Paulo Visguiero

- Describe the scene. How does the picture make you feel?
- Do you think the boy knows what lurks beneath the surface?
- What do you think he can see/hear?
- What is the crocodile's character like?
- What will happen next? Continue the story.
- If you could jump into the picture, what would you do? Would you help the boy? How?

Maths

Maths Activity – Short Division Method

Use your home learning books to practice dividing 2-digit numbers by 1-digit numbers using the short division method.

Look at the bottom of the page at how many stars it has. The more stars the page has, the more challenging the questions are. Choose which set of questions suit you. Try and challenge yourself!

Too challenging? Try doing some division using a number line

DT

In DT we were making shadow puppets. Today we challenge you to make a puppet (or puppets) and use them to put on a puppet show for someone in your house.

You could make a shadow puppet but you don't have to. You could make a sock puppet using an old sock. Or you could make a puppet out of one of your toys. If you wanted to make a shadow puppet you could cut it out of some card that you have (it might be an old cereal box).

You could invent your own story to act out or you could act out one of your favourite stories.

If you wanted an extra challenge you could think about how you might make the sound effects for your puppet theatre.
