

**Wednesday 22.04.20**

## **English**

Today, read the PowerPoint (4 slides) about the problem with plastic pollution (file on the school website)

\*Make notes about facts that surprise you or that you think are the most important to tell others about.

\*Next organise these facts into an eye-catching poster.

**KEEP these notes and your poster to refer to in later lessons**

### Going further

*You could look at these websites to find out more information.*

### **Week 1 – Lesson 2 – Making the whole**

**Watch the video and then answer the questions** by clicking on the 'Get the Activity' tab to download the worksheet. Don't worry if you can't print it, just write the answers in your home learning book and draw the shapes out in there.

You can check your answers on the same page where the video is saved under 'Get the Answers'.

## **Science**

We are going to be looking at food this term. We will start by looking at the food humans eat, then move to looking at food eaten by other animals. In today's lesson, you should look at the PowerPoint presentation (on the school website) to find out about the five food groups. Then you should either print out the sheet and fill in the chart, or draw your own version and fill that in.
