

Thursday 30.04.20

English

Today's English is a reading task. It is another piece of reading about our topic of oceans. The text and the questions are on the school website. Read the information then answer the questions. You can print out the questions and answer them on the sheet or you can just write the answers in your book.

Maths

To help you in your learning we are continuing to use the White Rose videos. These videos will help you to understand the concept and there will be activities to help you practise what you have been shown.

Start by visiting the White Rose website under the 'Home Learning' page and click on Year 4 or click on this link.

<https://whiterosemaths.com/homelearning/year-4/>

Summer Term Week 2 – Lesson 4 – Ordering money

Watch the video and then answer the questions by clicking on the 'Get the Activity' tab to download the worksheet. Don't worry if you can't print it, just write the answers in your home learning book and draw the shapes out in there.

You can check your answers on the same page where the video is saved under 'Get the Answers'.

Science

We have been looking at food and the different food groups. The challenge for today is to write down what you eat for each meal. Have a look at each meal and look at your learning from last week. Which food groups you have eaten the most of and which have you eaten the least?
