

Thursday 7.5.20

Year 4

English

Today's English is from the BBC Bitesize page again. The [link is here](#) and also on the school website. Today is all about fronted adverbials (these are adverbs at the start of a sentence). Work through the page starting with the video(s) then moving to the activities. As before, you can print off any sheets and work on them or you can write straight into your book.

Maths

We are continuing to use the White Rose videos and resources to support your learning this week. Remember, there is a slight change to how this works. The video will still be available on the [White Rose website](#) but the worksheet will have to be downloaded from the school website. There are also additional resources available from the [BBC Bitesize website](#) that will match the learning.

Remember to watch the video first then have a go at activity.

Today's lesson is

Summer Term - Week 3 - Lesson 2 - Divide 3 digit number by 1 digit number

Geography

Continuing our work on oceans, Today you need to find out 4 different ways the oceans and seas are used by humans (not just tourism – you can use this).

Write a short explanation about the different uses. You can include information about which one employs the most people and which one makes the most money.
